

## Business Intelligence Manager – Manila, Philippines

mClinica is a fast growing impact-driven healthcare technology company, focused on advancing healthcare for hundreds of millions of people across Asia. We help the biggest Pharmaceutical Companies in the World, Governments and NGOs navigate in SEA's emerging markets.

At mClinica we value people that take initiative and reward them with significant responsibility and the ability to directly impact our business globally. We collect Billions of data records across our diverse platforms and are now looking for a top talent support our Data Science Team.

### Your tasks and responsibilities:

- Provide support for the development of business intelligence solutions.
- Critically analyze complex healthcare data, provide insights and present findings to internal users.
- Work on complex cross-functional IT and business intelligence solutions.
- Work on multiple tasks/projects as a team member and sometimes work as a functional lead.
- Provide timely reporting and work with business analysts to extract and present insights on operational performance to top management.
- Manage the reporting and analytics platform(s) to ensure that scheduled jobs are successfully run and analytics data aligns to timeliness / completeness requirements
- Be part of a highly entrepreneurial and international team and take part in the creating of a leading internet venture with a focus on advancing healthcare.

### Your Profile

- A degree level qualification and/or equivalent experience in a relevant field.
- Experience working as part of a data analytics team in an analytical and development capacity.
- Experience with Python/R/Scala or a major statistical analysis platform/language (SAS, SPSS or other).
- Basic knowledge of SQL or the ability to write advanced DB queries in preferred languages (Python, R or other).
- Ability to quickly disseminate data to find key trends, as well as ability to dive deep and mine the data behind these.
- Comfortable working with datasets containing millions of rows and creating complex visualizations from raw data in a live dashboard environment.
- Excellent written and verbal communication skills.
- Ability to work well and deliver under pressure.

### What You Can Expect from Us

- Opportunity to **work with unique data sets** and help mClinica have a significant positive impact in the health for hundreds of millions of people.
- **Significant career growth opportunities** in a fast-growing international business.
- **Competitive compensation.**
- **Challenging and diverse international assignments** along with direct responsibilities.
- **Fun & casual working environment.**
- **Starting date:** As soon as possible.
