

Pharmacist Data Analyst – Manila, Philippines

mClinica is a fast-growing impact-driven healthcare technology company, focused on advancing healthcare for hundreds of millions of people across Asia. We deliver Healthcare Market Access and Analytics services to Pharmaceutical Companies, NGOs and Public-Sector Institutions across 6 countries in Southeast Asia.

At mClinica, people who take initiative and ownership are rewarded with significant responsibility and opportunity to directly impact the business globally. We are seeking a Pharmacist Data Analyst in Manila to support our growth in the Philippines and across the region.

Your tasks and responsibilities:

- Support the Data Science team and its stakeholders at all levels of the business to meet their reporting and data analytics needs including standard and ad-hoc reporting
- Help acquire, build, maintain, filter, and “clean” data specifically drug related data from various systems and sources
- Analyze and effectively convey emergent pharmaceutical product utilization trends and data patterns through reports and presentations
- Maintain documentation of data flows and data extraction, transformation and loading processes
- Assist the Data Science team in identifying gaps and/or opportunities in the data capture and tracking strategy
- Create ad-hoc analysis on business needs

Your Profile

- Candidate must be a Licensed Pharmacist with a highly analytical mindset
- Fresh graduate or at least 1-2 years' experience in any pharmaceutical-related field
- Possess excellent knowledge on pharmaceuticals including dosage forms and indications
- Equipped with common sense and professional work ethic
- Keen attention to detail
- A drive to understand the relationships between data and business, draw conclusions and use critical thinking to validate/verify outputs
- Ability to perform detailed data analysis (i.e. determine the structure, content, and quality of the data through examination of source system data and data samples)
- Understanding of SQL as a data query language and ability to write queries against a relational database system to gather and compare data is a plus
- Excellent analytical, logical, and organizational skills
- Strong interpersonal skills; ability to work independently as well as be a contributing member of the team
- Advanced skills with all Microsoft Office Software (specifically Excel and Powerpoint) for the creation of management reports, presentations, and analysis

What You Can Expect from Us

- **Significant career growth opportunities** in a fast-growing business in the Philippines
- **Competitive compensation with performance bonus.**
- **Opportunities for international travel.**
- **Challenging and diverse assignments** along with **direct responsibilities.**
- **Fun & casual working environment** in an international team.
- **Flat hierarchies** within a fresh, dynamic and highly motivated team.
- **Starting date:** as soon as possible.
