

User Experience Designer– Manila, Philippines

How often do you have the chance to actively put yourself in the right place at the right time? Now you have the opportunity to join our fast growing team and together we can change the way Healthcare professionals communicate in Southeast Asia. We are looking for a talented and experienced User Experience Designer to support the growth of a one-of-a-kind social application, to be launched in 2017.

At mClinica we value people that take initiative and reward them with significant responsibility and the ability to directly impact our business globally. Join our Global Product Team in Manila and be part of advancing healthcare for hundreds of millions of people.

Your tasks and responsibilities:

- Design and deliver user stories and journeys and translate them into mockups and prototypes.
- Identify design problems and create elegant solutions.
- Translate strategy into design and make user-experience decisions in line with the core product, as well as new features and functions.
- Rapidly iterate UX designs based on testing, always with the user in mind.
- Work closely with the product team, Collaborate with other stakeholders and present comprehensive concepts and ideas.
- Take initiative, take calculated risks and bring great UX to life.

Your Profile

- Desire to learn and improve your skills – attitude is by far the most important.
- At least 1 year of UX design experience.
- Extensive experience in using UX design best practices to design solutions and a deep understanding of mobile-first and responsive design.
- A solid grasp of user-centered design and testing methodologies, subsystems, and usability and accessibility concerns.
- Ability to iterate your designs and solutions efficiently and intelligently.
- A clear understanding of the importance of user-centered design.
- Be passionate about all things UX and other areas of design and innovation. Research and showcase knowledge in the industry's latest trends and technologies.
- A degree in Behavioral Science or similar is a plus.
- Proven track record of UX design improvements is a plus.

What You Can Expect from Us

- Opportunity to **work on an exciting new project with unique UX challenges** and help mClinica have a significant positive impact in the health for hundreds of millions of people.
- **Steep learning curve and significant career growth** opportunities in a fast-growing international business.
- **Competitive compensation.**
- **Challenging and diverse international assignments** along with direct responsibilities.
- **Fun & casual working environment** in an international team.
- **Starting date:** As soon as possible.
