

Mobile Developer (iOS/Android) – Taguig, Philippines

mClinica is a fast-growing impact-driven health tech startup focused on connecting pharmacies to transform global health. We work with pharmaceutical companies, governments and NGOs by providing mobile and web technology platforms to tackle the complex challenges of the healthcare industry.

At mClinica we value people that take initiative and reward them with significant responsibility and the ability to directly impact our business globally. We work hard, we work smart, we are very passionate about what we do, and we like to have fun. Interested? We're now looking for talented and passionate **Mobile Developer (iOS/Android)** to join our Global Tech Team in Manila where you'll be collaborating with other developers to deliver high quality products to our customers.

Your Role:

- Design and build applications for the Android / iOS platforms
- Ensure the performance, quality and responsiveness of applications
- Work closely with UI/UX designers to ensure the technical feasibility of their designs
- Develop coding standards, methodology and repeatable processes.
- Team player, professional, effective communication and interpersonal skills.
- Ensure code and design quality through the execution of test plans.
- Collaborate with engineering and product team to design and launch new features.

Your Qualification:

- Bachelor's degree in Computer Science or equivalent
- At least 2 years of software development experience.
- Experience with building modern mobile applications, preferably with Native Language such as Swift, Java, Kotlin in Agile/Scrum environment.
- Experience with iOS tools such as Cocoa Pods, SwiftLint, AlamoFire, XCTest, MagicalRecord, Core Data, RxSwift, RxCocoa and Android tools such as Gradle, Retrofit, Android Jetpack, RxJava, Coroutines, Kotlin Extensions, Fuel, Glide, Proguard, Espresso
- Experience with deploying mobile applications on Google Play / App Store.
- Experience with modern frontend development (Material Design, XML, Storyboards, CoordinatorLayout)
- Proficient with version control using Git
- Familiarity with RESTful services and ways we can improve, consume and communicate with the back-end logic
- Self-driven with a strong desire to remain current on emerging digital technologies.
- Open to learning new technologies and bring new ideas to the table.
- Self-starter and could easily adapt to constant improvements / changes
- Knowledge / Experience with Flutter is a plus

What You Can Expect from Us:

- **Significant career growth opportunities** in a fast-growing business
- **Competitive compensation** package
- Opportunities for **international travel**.
- **Challenging and diverse assignments**
- **Fun & casual working environment** in an international team.
