

## Monitoring and Evaluation Manager – Taguig, Philippines

The USAID-funded TB Innovations and Health Systems Strengthening (TB-IHSS) project in the Philippines is designed to bring a dynamic and strategic approach to accelerate the fight against tuberculosis (TB) by identifying approaches to maximize case detection and health-seeking behavior, integrating and institutionalizing practices to improve treatment adherence and quality of care, and creating a supportive environment encompassing the continuum of TB prevention to care.

mClinica is a fast-growing, impact-driven technology organization whose mission is to build digital networks of pharmacies to improve market efficiencies and health outcomes for hundreds of millions of people across Asia. We are tasked with using innovative new mobile technology to engage private pharmacies in the fight against tuberculosis by finding missing TB cases from private sector pharmacies. We are hiring a Manila-based **Monitoring and Evaluation Manager** to inform and achieve this goal.

### Your Role:

- Provide direction and oversight to all aspects of monitoring, evaluation, and learning for the project;
- Lead the design and implementation of the project's M&E system which will capture data from SwipeRx and project field staff;
- Maintain the project's M&E system, including the tracking of performance indicators, milestones, and baseline conditions;
- Prepare data tabulations, reports, and presentations to support project activities;
- Prepare monthly, quarterly, and annual progress reports on the status of project implementation; contribute to other project reports such as work plans;
- Coordinate with stakeholders and participate in relevant working groups to ensure progress toward meeting project targets;
- Identify project successes and challenges based on data collection and provide recommendations for appropriate project adjustments.

### Your Qualification:

- Master's degree in public health, data science, or a related field;
- At least 5 years of experience implementing M&E activities for large donor-funded health programs in Southeast Asia;
- Solid understanding and command of M&E issues regarding improvements in TB control programs;
- Excellent quantitative data analysis and presentation skills;
- Strong management, communication, presentation, and cross-cultural interpersonal skills;
- Experience working with a diverse range of stakeholders including field staff, donors, professional associations, and other project partners;
- Demonstrates interest in mobile technology; ideally, you have a keen interest in the startup world;
- Flexible to changes and capable of turning around projects quickly and present to top management;
- Fluent in English and other local languages are desirable.

### What You Can Expect from Us:

- **Significant career growth opportunities** in a fast-growing business
- **Competitive compensation** package
- Opportunities for **international travel**.
- **Challenging and diverse assignments**
- **Fun & casual working environment** in an international team.
